PROJECTS

Official Website Development for EMATIX Solutions

- Independently designed, developed, and deployed the official website for **EMATIX Embedded & Software Solutions** in the role of a Web Developer Intern..
- Integrated key features, including interactive forms and WhatsApp integration, to enhance user engagement and streamline communication.
- Utilized **Hostinger** for hosting, ensuring the website was responsive, secure, and user-friendly.
- Successfully delivered the project on time, fulfilling company requirements and demonstrating technical expertise.

Frontend UI Clones

- Designed and developed responsive frontend UI clones of popular platforms like Spotify, Airbnb, SpaceX, and Flipkart.
- Utilized ReactJS, HTML, and CSS to replicate complex layouts and interactive components, ensuring a seamless user experience.
